

the University of Chicago, receiving both his undergraduate degree in political science and his M.B.A. at the prestigious university. He also served his country proudly in the United States Army Reserve.

Stephen M. Meltz is currently the President of Stephen M. Meltz and Associates, a C.P.A. firm located in Lincolnwood, Illinois. It is a successful business, where his clients know that the work done by Stephen's firm is both professional and honest. For the last year his son David Meltz has joined him at the firm, which now makes it truly a family business. But for all the success Stephen has had in his professional life, I know that his family is his greatest sense of pride and accomplishment.

Stephen has always made the best interests of his family his primary concern. He has taken care of his wife, his children, his parents, his wife's parents and many members of his extended family with loving care. He saw to it that his children received the best educations available. He made sure that the final years of his and his wife's parents were lived with dignity and comfort. Like many fathers, his dedication to his family has sometimes gone unnoticed, but he does not care for his loved ones for accolades, but because he loves his family. For all these reasons, Stephen is a patriarch in the truest sense of the term. A pillar of integrity that all his family can lean on in their hour of need and celebrate with during times of joy.

Mr. Speaker, it is often said, that the road to the Underworld is paved with good intentions. Contrary to this premise, Stephen M. Meltz has always had honor and a strong core of moral beliefs and intentions, and his actions have always mirrored those values. Aristotle said, "In the arena of human life the honors and rewards fall to those who show their good qualities in action." Stephen's rewards are both a devout family and loyal friends who have witnessed his lifelong "good qualities in action" and will honor him over dinner on his sixtieth birthday.

Mr. Speaker, lastly, I am particularly pleased to have this opportunity to congratulate Stephen M. Meltz, on his sixtieth birthday, because his son Gary C. Meltz is a member of my staff here in Washington, DC. Gary asked me to put into the CONGRESSIONAL RECORD a speech to commemorate his father's birthday. I am honored to do this for Gary and his father. I urge all my colleagues to join me now in wishing Stephen M. Meltz a happy sixtieth birthday and Godspeed.

M.D. ANDERSON CANCER CENTER

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. GREEN of Texas. Mr. Speaker, I wish to bring to the attention of my colleagues in the House of Representatives a recent article about the wonderful medical advances at the M.D. Anderson Cancer Center in Houston, Texas. The article tells the stories of two people, a young college student and the former Speaker of the House Jim Wright, dealing with cancer of the jaw and their experiences with this once debilitating disease. Their respective stories highlight the need to support our Nation's cancer centers and highlight how med-

ical advances can truly give Americans hope where none previously existed.

Reconstructing Lives by Mary Jane Schier—For 19-year old James Smith, the quality of survival from cancer of the jaw is paramount in order to pursue his dream of playing professional football.

Smith is a junior majoring in health and human performance at McNeese State University in Lake Charles, LA, where he was an outstanding defensive tackle until diagnosed with a disease uncommon among teenagers.

He and his family were stunned to learn in November 1998 that he had a tumor in his right mandible, the horseshoe-shaped bone that forms the lower jaw. The mandible, he knows, is the largest and strongest bone in the face.

Smith was forced to take an extended timeout from the football team to begin the biggest challenge of his young life. Upon coming to M.D. Anderson, he joined a new team whose members are nationally ranked for treating head and neck cancers.

The head coaches in the multidisciplinary treatment regimen that Smith received are Dr. Helmuth Goepfert and Dr. Geoffrey L. Robb, who chair the Department of Head and Neck Surgery and the Department of Plastic Surgery, respectively. For the coaches and their specialty colleagues, the common goal centers on removing patients, cancers and restoring optimal form and function.

Smith's surgery 3 days before last Christmas involved cutting out his diseased jaw and reconstructing the mandible with bone and tissue taken from his left leg. Although he couldn't talk or eat his favorite pizza for a while, Smith says now, "I'm getting stronger every day . . . and I'm eager to play again."

At the other end of the age spectrum is former U.S. House Speaker Jim Wright, who at age 76 also illustrates the importance of high quality in one's life.

I've always been a talker, so I was a little concerned before the surgery that I wouldn't be able to talk well enough for people to understand me," confides Wright, a Fort Worth Democrat whose 34-year span in Congress was complete in 1989.

During more than 13 hours of surgery at M.D. Anderson last March 12, Wright's cancerous right mandible, an adjacent segment of the tongue and eight teeth were removed, then a six inch piece of bone from his left leg was used to form a new jaw. Skin from his left thigh overlying the bone was also transplanted to replace part of his inside of his mouth and tongue and the external skin of his cheek.

"Believe me, I feel truly blessed," Wright says in a strong and clear voice.

His gratitude has been enhanced by recalling how his father lost a jaw to cancer more than 30 years ago. "There was no thought then of replacing it with bone from somewhere else in the body . . . (He) spent his last days with a facial disfigurement that was the mark then of many cancer victims," Wright remembers.

This was Wright's second bout with an oral cancer. In 1991, he had surgery at M.D. followed by radiation treatments. Since his latest extensive surgery, he has resumed most of his favorite activities, including writing a regular newspaper column and, of course, "talking with anyone who'll listen."

Intensive collaboration among head and neck surgeons and plastic surgeons in recent

years has "greatly improved our ability to resect all sizes of tumors and to restore vital function and appearance as well as to extend survival," observes Dr. Goepfert, who holds the M.G. and Lillie A. Johnson Chair for Cancer Treatment and Research.

New methods developed by plastic surgeons permit reconstruction of the oral cavity safely and with increasingly good outcomes. The key to success involves transferring tissues—together with vital blood vessels and nerves—from elsewhere in a patient's body to use for rebuilding parts of the head and neck affected by cancer.

Dr. Robb explains, "The head and neck is the most difficult area to reconstruct. But through specialized Micro vascular techniques, we can move tissues, muscle, fat and bone, along with their blood supply, to use in reshaping jaws, the tongue, and parts of the nose, ears, and throat."

Age is no obstacle for performing big reconstructive procedures so long as older patients have good blood vessels to transfer with the tissues. Regardless of age, Dr. Robb says, "Our primary aim is to restore form, contour and function to the body parts affected by cancer surgery so that patients can enjoy the highest quality of life."

For Wright, being able to talk, chew, swallow and look virtually normal is a "miracle" stemming from remarkable medical progress and his religious faith. "The good news is that cancer is conquerable" and "useful life is prolongable."

Realizing the best quality of cancer survival for Smith, however, will occur when he can return to the football field. During a recent follow-up visit to M.D. Anderson, his doctors encouraged him to continue that dream.

COMMUNICATIONS SATELLITE COMPETITION AND PRIVATIZA- TION ACT OF 1999

SPEECH OF

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 10, 1999

Mr. PALLONE. Mr. Speaker, I wish to commend the distinguished Chairman of the Commerce Committee, Chairman BLILEY, and Chairman TAUZIN, who have worked diligently to bring satellite privatization legislation before the House in these last days of this Session. This bill is an important step toward legislation that will advance increased competition in the global satellite telecommunications market.

When the House passed this bill last year, it was with the firm belief that time and technology had passed by the 1962 law that created COMSAT. In spite of the overwhelming House support, the bill was stalled over concerns raised by colleagues in the other body. Since that time, Lockheed Martin has arrived on the scene to buy COMSAT and make it a normal, private company without legal immunities or exclusive access to the Intelsat system. This is exactly what the proponents of the Bliley-Tauzin bill want and is yet another example of the marketplace being ahead on Congress.

To date, Lockheed has followed regular order in its acquisition of COMSAT. It has received the approval of both the Federal Communications Commission and the Department

of Justice to acquire 49% of COMSAT. Neither federal agency felt that competition or anti-trust laws were threatened by Lockheed Martin's purchase.

Now it is Congress' turn to weigh on this issue and I believe that this bill goes to great lengths to achieve honest and fair competition in the satellite competition in the satellite communications market. I also believe that we can complete legislative action on this bill before Congress leaves this year, which I understand the Chairman has said he intends to do. But as we move toward that legislative objective, it is important that we realize that certain issues must be addressed before we can declare a victory for the private competitive marketplace.

First of all, there is the issue known as "Level IV direct access". In effect, it would result in the forced divestiture of billions of dollars of Comsat shareholder investment in Intelsat infrastructure—investment undertaken often at the behest of the U.S. Government. Level 4 direct access simply guts the economic rationale for a private company to invest in Comsat. Indeed, that may be the rationale behind this provision: to dissuade Lockheed from acquiring Comsat. If that is the case, it would be a cynical attempt to manipulate the free market in the name of "competition." This provision must be changed in conference. Similarly, Congress should simply repeal the ownership cap on Comsat upon enactment of final consensus legislation, rather than making it contingent upon occurrence of unrelated events as it does now.

Other outstanding differences between the House and Senate have been raised by other Members and must similarly be resolved in conference. I urge Chairman BLILEY to work with Mr. DINGELL toward a consensus, notably on the privatization criteria, which serve as FCC licensing criteria, and must be made more flexible.

Again, I consider myself as a supporter of this bill. The Congress has been very shrewd in letting the telecommunications marketplace work its will towards fair competition. We should use this opportunity to continue that successful record. I urge the conferees to consider these issues when crafting a final package to present to the Congress and ultimately the President.

A TRIBUTE TO FREDERICK C.
MALKUS, JR.

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. HOYER. Mr. Speaker, I rise to pay tribute to a great statesman and leader in the State of Maryland. With the death of former state Senator Frederick C. Malkus, Jr., on November 9, Maryland, as well as the entire Country, lost a great patriot and a dutiful public servant.

Frederick C. Malkus, Jr. died at the age of 86, having spent all of his adult life in the service of his fellow citizens. Senator Malkus, a conservative Democrat, served in the legislature for 46 years—12 in the House of Delegates and 34 in the Senate—before retiring in 1994. Upon his retirement, he was the longest serving State Legislator in the United States.

Born July 1, 1913, in Baltimore, Senator Malkus moved to the 380 acre Egypt Road farm, nine miles outside of Cambridge, on Maryland's Eastern Shore where he was raised there by his aunt and uncle. He spent the past 83 years on the working farm that produces wheat, corn, and soybeans. He graduated for Western Maryland College in 1934 and received his law degree four years later from the University of Maryland Law School. During World War II, Senator Malkus served in the U.S. Army and rose to the rank of major. He returned to Maryland and in 1947 won a seat in the House of Delegates.

He was, Mr. Speaker, an unforgettable individual who was a wonderful servant to Maryland and America. To know Fred Malkus was to know how deeply he cared for rural America and more specifically for the Chesapeake Bay region. Senator Malkus was at the forefront of the fight to save the Bay. Even though he was pro-business in his views, he was a great environmentalist. His legacy will no doubt live on and serve as a model for future leaders of our State and our Country.

Senator Malkus is survived by his wife of 41 years, the former Margaret "Maggie" Moorer, his son, Frederick C. Malkus III, two daughters, Margaret Elizabeth "Betsy" LaPerch, and Susan Moorer Malkus, and three grandsons.

HONORING JACK A. BROWN III

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. TOWNS. Mr. Speaker, I want to recognize the achievements of Jack A. Brown III.

Jack is a native New Yorker who was born and raised on the lower east side of Manhattan. He currently resides, in my district, in the Clinton Hill section of Brooklyn. Jack has had a distinguished seven-year career with the Correctional Services Corporation (CSC). The Corporation is a private company contracted by local, State, and Federal Corrections Department to provide concrete services to the inmate population. As the Vice President of Correctional Services Corporation Community Services Division, Mr. Brown maintains overall responsibility for the day to day operations of the five New York programs. These programs, three for the Federal Bureau of Prisons and two for the New York State Department of Corrections, are designed to provide inmates with the tools necessary to successfully reintegrate back into their prospective communities as self-sufficient, responsible, law abiding citizens.

Prior to his employment with CSC, Jack served as an officer in the United States Army's Air Defense Artillery Division for four years. He is a graduate of the State University of New York at Buffalo with a Bachelor's degree in Human Services, with a concentration in mental health, and Biology. During his academic years, he gained invaluable experience in the field of human services holding positions as Psychiatrics Counselor, Chemical Dependency Counselor and Youth Counselor. In December, Jack expects to earn a double Masters degree, an MBA and a Master of Science and Economic Development, from the University of New Hampshire.

I wish Jack Brown success in his future endeavors and I commend his achievements to my colleagues' attention.

TRIBUTE TO NATIONAL WOMAN'S
CHRISTIAN TEMPERANCE UNION

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. BURTON of Indiana. Mr. Speaker, on November 18, 1999, the National Woman's Christian Temperance Union (WCTU) will celebrate 125 years in existence, making it the oldest, continuing, nonsectarian Christian woman's organization in the United States. Their motto is "For God and Home and Every Land."

Directed entirely by women from its beginning, the WCTU has united women from various backgrounds and geographical regions in their determination to educate the world about the dangers associated with the use of alcohol, tobacco, and other drugs. Throughout the years, the WCTU has advocated for universal voting rights for women and minorities, the eight-hour work day, equal pay for equal work, opposition to child labor, shelters for abused women and children, and world peace. In 1945, the WCTU became a charter member of the United Nations Non-Governmental Organizations (NGO).

Their first National president, Annie Wittenmyer, was thanked by Presidents Abraham Lincoln and Ulysses S. Grant for her work during the Civil War in organizing diet kitchens in military hospitals. Their second National president, Frances E. Willard, was honored in 1905 by having her statue placed in the Statuary Hall of the U.S. Capitol—the first woman and the only woman to be honored for more than 50 years. The current National president of the WCTU is Sarah Ward, a resident of the great State of Indiana, and I wish her all the best in her endeavors with the WCTU as they continue their good work for the protection of the home.

A TRIBUTE TO JENNIFER
MUMMERT

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 17, 1999

Mr. LEWIS of California. Mr. Speaker, I would like today to pay tribute to Jenny Mummert, a hardworking, highly valued staff member of the Defense Subcommittee of the House Appropriations Committee, who is leaving November 19th after eight years to pursue her career in the private sector.

Whether she was putting in long days and endless hours working on behalf of our national defense—or struggling to look serious at the Paris Air Show—Jenny Mummert couldn't help being her ever-positive self. She has always been a vital member of the team, doing all she can to make the defense appropriations subcommittee the best committee in the House of Representatives.

Now she has decided to leave us to seek new challenges and opportunities. But she will always be a part of our family. We know that her husband, Joe, and their four children, Joey, Kandyce, Kevin and Karley, are excited about her new career. But they are very likely just as excited about the prospect of mom having a more normal work schedule.
